And here is Djwhal Khul’s latest Spirituality Article, information complimentary every Thursday:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. Well we have a lot going on in the inner planes. We have kind of a Mars Warrior aspect that’s up that’s a bit of agitating. We have quite a bit of pressure from planetary influences calling for a lot of change, rapid change; kind of a dramatic weeding out of things so it’s time to maybe get rid of some extra socks or clean out the refrigerator, that sort of thing. Essentially it’s calling for more organization and more efficiency on a global level.

Then we have Moon moving into what I call PsyPi or Psychic Pisces which is going to be quite potent, very much so, more than Halloween as it usually is when the veils are their thinnest between the physical and the astral planes. So it's intense.

On top of that, we have what I would call the Wesak Halfway Point. So true esoteric Wesak is when the Sun is in Taurus and the Moon is full in Scorpio, usually May, although next year 2016 it will fall on April 22. So when Easter comes early and Passover comes early then also Wesak comes early. Although many traditionally celebrate it when the Moon is full in May no matter what. But technically it is in Sun in Taurus and Moon in Scorpio.

So here we are exactly half way across the Zodiac. What we have coming here is going to be a Full Moon October 27 and the Sun will be in Scorpio and the Moon will be in Taurus. It does a little bit of a reverberating dance so you're kind of reminded about your Wesak vows or about your World Service vows and that's it's kind of halfway through that annual dedication.

So you might review what your service goals are and maybe perhaps start moving in a beeline for some of you and others it might be a 180 and for some of you it might quicken your path a little bit but it will kind of pull things up to the surface for changes to be made.

Alright Dear Ones. As always, thank you and my love to you.
