(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. I want to start with a vibrant pink color. Valentine's Day is coming. Mercury will be moving into Aquarius, Venus will be moving into Aquarius. We have a lot of possibility for love communications to be heightened, made more clear, etc. and just a lot more conscious devotion to Love in general. So I am looking forward to that.

To the pink, I want to add a little bit of red, and that's kind of also aligning with the [Chinese New Year](#) of the red fire male monkey. So we can get that energy going. And then I want a third color choice in there and I'm going to let you pick what you want to mix with pink and red. You might

want white for just a kind of Christed purity aspect or maybe gold for a little more healing power, maybe blue to balance the mind and the heart, purple for transformation. So pick a color that appeals to you and of course you can keep changing it.

And we want to see the entire aura engulfed in these three colors of flames: so three at a time, pink, red and whatever the third choice is yours. And they all feel a little differently. So you can play with them and EnJoy it.

And just in general think about a more conscious devotion to Divine Love.

Alright Dear Ones. As always, thank you and my love to you.
