(Channeling begins)

Djwhal Khul here. Tashi Delek.

Well, we have a very busy month and it is starting out with a Uranus retrograde in Aries and then two eclipses, the first one being a lunar eclipse on this Full Moon in Aquarius and that's coming on Monday, August 7. Then of course we have the solar eclipse strongly affecting the USA and that is coming on Monday, August 21, two weeks later basically.

So it's packed. And we also have several key planets retrograde. So my focus for this week is that lunar eclipse, the moon full in the sign of Aquarius. It's really going to strongly affect moods, strongly affect thinking. Aquarius is sort of an air sign, it can bring about change, it can work with all kinds of things, levels of freedom. Esoterically, I think it has a value to promote excellence and,

in a more kind of shamanic use, I would give it a uniqueness, complete uniqueness; something strange out of the box, extraordinary even. So the power of this moon is very, very strong. I am going to encourage you to focus on what you *do* want. Feed the positive energies of what you do want and really use the power of that eclipse.

Alright Dear Ones. As always, thank you and my love to you.

*Djwhal Khul*
