And here is Djwhal Khul’s latest Spirituality Article:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright then. We are going to begin with a beautiful universal golden white light, allowing that energy to come down through the body. We still have the energy of the harvest moon. So this is still a time to express gratitude for all the good things in life and specifically to harvest or receive the return of all the good deeds that you have done.

It’s rather an important time, spiritually speaking, as we get very near the time frame of the opposite side of the zodiac, we are dealing with the three sacred moons, generally April, May and June, but on the opposite side of the wheel then to get into the October full moon. So one full moon cycle away from now, we reach the exact opposite of the Wesak moon.

We will be doing a special class on that on October 24 as one of our regular Wednesday telecourses. But now we are beginning to feel it as the Harvest energy comes in, as your World Service work comes to sort of a point of review or recap the energies. So this is a just a kind of precursor to the half way mark.

I will also say that one of things you’ll find coming up are disjointed dreams, and maybe even old negativity from the past and what that is calling to your consciousness is just to say:

“No thanks, here I dance in the light now, I want all the good things coming back to me now and I am grateful for all the wonderful things that I already have. I am grateful for all the

opportunities to be of service to others that I've been granted and that I agree to continue to serve others. So please keep granting me the opportunity to be helpful and to improve the life of others and also to improve my own life, my own existence."

All right. We are having a very brief Spirituality Article this week. The channel is just recovering from a little bout with an end of the summer cold so we won't stress the voice much.

I would welcome you to really celebrate all of the things that you do have, keep focusing on the positive because the power of this Harvest moon, is not just a few days on either side, you really have a building up between this moon and the next moon, and that opposite of the Wesak Moon.

So that is when there is a full moon and the sun is in Scorpio, the moon will be in Taurus. This is really sort of the half way marker as to your service path that was set in motion as part of your Wesak ceremony.

For light workers, New Year's day, if you will, is Wesak: when the Sun is in Taurus and the moon is full in Scorpio; and then your half way mark is exactly opposite: when the Sun is in Scorpio and the moon is full in Taurus.

It's a potent time and please again emphasize the most positive outcome, all of the good things that you are receiving as a result of your efforts put forth.

As always, thank you and my love to you,

Djwhal Khul
