And here is Djwhal Khul's latest Spirituality Article:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. We are going to begin here with the 9th Ray blue green in color and allow that beautiful color, sort of blue green luminous color, a bit of sparkle, quite a bit of life or dance in it and just allow that to come in through the crown chakra flooding through the body. So we want to see the body really like an empty container, filling with this liquid vibrant blue green light. Allow it to come in. It generally will stimulate some of the cellular tissues. Now we are working with the whole essence of the 9th Ray. It is one of the 5 higher Rays. If you want more information about the ray colors, and their properties and qualities, you can look up the 12 Ray Attunements on the website which is www.terrnewlon.com and see a little bit more in detail about the aspects of the ray colors.

We are going to bring in with this blue green joy aura also an angelic presence; sort of an angel of joy. Now you may have some favorite things, like a hummingbird, it may be quite joyful to you and particularly one of those with metallic blue green body. Or you may have other symbols and I would like to invoke an angel called Alazarro. Now you would think it would be Alazarra but she likes Alazarro. She really enjoys having her name sung or put to a little tune of some sort. You can also work vibrationally just with the word Joy and do it in sets of 3: so there is 3 letters and you say 3 times so: Joy Joy Joy. The number 9 also translates; just drawing the number 9 three times in a row, so 999 or chanting 999 999 999. So the pattern of three, the Holy Trinity and the

purpose of all life is happiness. So we are working with this Joy energy. It's a very, very exciting, exuberant, and sometimes I call it, exquisite Joy.

Alright. Now we check the body again as an empty container filled with this liquid blue green Joy light and now we are going to let it go overflowing and into the auric field. So we the see the aura, much like if you are looking at your body from a distance, that your body would be standing or sitting in a very large egg shape, 'cause the shape of the egg with the point going up towards the Heavens and the heavier base of the egg going well below the feet. So we want to fill that entire space with blue green Joy, and make it Exquisite Joy. Breathe and maybe swirl the hands around a little bit. Any kind of Chi moving, such as the breath or you're singing or you're chanting and you're waving your arms a bit or maybe want to even move the feet, dance a little bit, move the energy as much as you can so that you are literally painting your entire aura, blue green in color.

All right. EnJoy the Joy. As always, I thank you and send my love to you,

Djwhal Khul
