

Dear Spiritual Family and Guests,

Thank you for joining us for a complimentary call on Saturday, February 19, 2011.

We will be attuning to the Three Star One, a great being also known as the oversoul of Melchizadek who is our Universal logos. Her name in ancient tongue is Nek Hak Nol. She is symbolized on our planet in many ways, such as a sacred hat worn in Tibet, and the beautiful white trillium flower. Djwhal Khul channeled an invocation for her presence to assist in peace and help Light Workers fulfill their missions on June 21, 1999. You can view the [full invocation here](#) or find it in our [Glossary](#) on the website.

Trillium

Joining us will be my friend, Anna Rita Raineri of Sedona, Arizona. She has created an exciting new vibrational elixir with the assistance of this Great Being. The Three Star One appeared in the sky over Sedona when the essence was complete. She paused long enough for Anna Rita to get her on film.

During this call, Djwhal Khul will share his knowledge of how using this elixir can assist us. We are excited to hear what he has to say! Of course, Three Star One will also be gracing us with her presence.

Here are the codes. Feel free to share them! We'll send the mp3 audio to everyone on our e-list in case you miss the live call or the telephone recording, or the line just fills up.

Here is how Anna Rita describes making the elixir. The picture she took follows:

I went to the wash beside the Thunder Mountain trailhead. It was the spot where I first activated my Merkabah energy field of love and light in 2006. I lit a tiny little leaf of white sage and smudged the immediate area and myself.

I placed the jar of purified water on a small rock ledge and surrounded it with sacred plants; rosemary, white sage, tobacco and three kernels of blue corn, the first yield from Hopi garden at Montezuma Well [sacred ancient site near Sedona]. I also placed three small Lemuria diamonds around the jar. One of them was amethyst.

I toned, I chanted Om man ne pad me hum. I did some personal prayers for humanity's illumination and peace. As I was finishing, I heard the whoosh of wings swooping over me and four ravens playfully circling above me.

I poured some of the charged water onto the ground and thanked Gaia. I took the three Lemuria diamonds and buried them in the ground.

Then I looked up into the sky and saw the Great Being as a cloud formation. I took her picture.
