And here is Djwhal Khul's latest Spirituality Article, information complimentary every Thursday:

(Channeling begins)

Djwhal Khul here. Tashi Delek.

Alright. We are going to begin please with a golden white light. I use this color a lot and the repeated exposure to that particular color does strengthen your spiritual connection and provide for strong healing energy to go through the body.

So we are going to bring the golden white light in a strong column, engaging it into the top of the head, please, and then coming straight down through the body. You could also see something like a fluorescent tube of golden white light that is inside your body, going from the top of the head to the base of the torso or the Root Chakra, and you can see it bright, very bright, illuminating at least as wide as your face, maybe as wide as your shoulders or even more so.

So that would be to keep that energy, that torch of light of golden white strong so that the Chakras are delivered healing energy to the rest of the body.

Alright. We are getting to work with some other forms of delivering energy to light workers and humanity that are called transmissions. We will be doing a [Kindness Transmission](#) later this month on an auspicious day.

We also have [Success in the New Age](#), a very specific one. If you are wanting to succeed on your service path or any other aspect of the New Age, it could be your relationships, a business, parenting, if you want to succeed, then I would consider working with those energies as well. Those are available on the [Tele-seminar](#) page and have become quite popular, so spreading the word because they are helping many, many individuals.

Alright. So transmission. What I would like for you to do is take a moment to receive a "Transmission of Enlightenment". I have done this one before but as I have said, everything that you focus upon is reinforced, deepened, and increases your speed and ability to grasp the depth of any healing.

So just take a moment to relax; take a deep breath, let it out and receive a burst of enlightenment. It is sort of an energy wave or transmission that comes toward the body. Some of you will feel it like a strong, oh, like a little gust of wind or something.

Let's do one more, and again, this is a hands up and send that energy a bit more, "Transmission of Enlightenment". There.

Energy can be felt no matter what. It transcends time and space.

Alright. As always, thank you and my love to you,

Djwhal Khul
