Djwhal Khul here. Tashi Delek and Namaste and other high greetings.

This week I want to talk about an influence that I think is kind of a strong precursor to Valentine's Day where that is celebrated but just in general also more love energy coming in cosmically.

So the influence that I am noting is Scorpio and Chiron Healing. When you have the moon in Scorpio you have more healing that happens, roughly every thirty days or so. And then you have Chiron currently in Psychic Pisces which makes a lot of healing depth available. They've had a trine of energy that is affected. And then when the moon is done with Scorpio it goes into the next sign in the Zodiac, so it's in Sagittarius, which adds a fire and an expansion.

So when you're starting to work with the cosmic energies, you can consciously intend that any Chiron Scorpio healing that you received is now moving forward with a bull's eye arrow and a lot of

fire and expansion and actually targeting *a* specific area in your life or maybe *a* specific area of global concern.

Alright Dear Ones. Thank you and my love to you.
