Djwhal Khul here. Tashi Delek.

Alright. Now perhaps this week is a little bit of a lull – just kind of a chance to catch your breath, get your ducks in a row, you know, kind of re-organize things, or reassess things. So there is not a lot of activity so to speak in the Heavens except for Venus who will be moving into lively Gemini.

Well there are a few other things. I am not dismissing holidays and whatnot but basically Venus in Gemini which is going to bring in really kind of a depth of love, or diversity within the love concept.

So I see it as an esoteric window to take a look. Well, you might say, "Well I love this about you but I don't love that about you." Suddenly there is more depth, more opportunity to see love in everything. Or to move into a state of consciousness where there is love and As Is Acceptance rather than anger and irritation. So I encourage you to practice that. Use the energies there.

So keep a note that as we get into July, we get into the 1st of July, Mars moves into Leo. On the 2nd of July we have a New Moon with a Solar Eclipse and then on the 3rd of July, Venus moves into Cancer. So those three days, back-to-back like that, are going to be kind of potent. So get everything organized, get your ducks in a row prior to that.

Alright Dear Ones. As always, thank you and my love to you.
